**Note:** By contract, any vendor's awards for cut-stock paper and custodial papers may change quarterly, if the supplier's cost increases from the manufacturer. Check the site at [www.EdBuy.org](http://www.EdBuy.org) for the latest price list or to search the contract database for the most current prices for these items.

The items below represent the Core List of items most frequently purchased by 125 school districts in California. Prices on the Core List are the most aggressively priced by vendors who won awards through a competitive bid process. If you need something that is not on the Core List, you may buy something listed in each vendor's catalog or on each vendor's web site based on a discount off of the published paper catalog price. During the bid process, each vendor identified what percentage discount, they would charge for non-core items listed in their catalogs.
